DESIGN INNOVATION

EASY TO CONTROL

# The Zipscreen difference

Zipscreen is Australian designed and manufactured and features the latest in technological innovation – ensuring the finest outdoor shade solution.

Your custom designed blinds can be made in widths up to 5.8 metres or an impressive 7 metres with Zipscreen Extreme, offering you an external solution to fit almost any area.

## Customised headbox configuration

Zipscreen's head boxes are manufactured from high-quality aluminium featuring a modern, square profile. Take advantage of the versatile installation options offering either a full or semi enclosed cassette.

## One action Ultra-Lock

Exclusive to Zipscreen, the patented Ultra-Lock is a hidden locking mechanism that integrates into the side channel of the system. The result? A secure and tensioned blind with an ultra-smooth taut fabric finish.

## Hidden fabric retention

Concealed within the channels, z-LOCK™ securely fastens the fabric in position creating a strong, streamlined finish. With precision integration, the zip-guided system ensures zero gaps between the fabric and channel while ensuring an effortless operation.

## Zipscreen control options

“Hey Siri...  
open my shades”

### Manual

Control your Zipscreen manually, using either a cost-effective spring or crank solution. Simply open or close by hand using the weight bar or by winding the detachable crank handle.

### Motorised

Power your Zipscreen using a wired or battery powered motor. Enjoy effortless and convenient operation with the simple touch of a button or handsfree voice control.
